Documentation Overview

1. Abstract
2. Introduction
3. Background
4. Aims and Scope
5. Assumptions
   - System Implementation Restrictions
6. Group Details
7. Project Management
   - Risk Analysis
   - Quality Assurance
     - Documentation
     - Meetings
     - Code
     - Repository
   - Version Control
   - Repository
   - Third Party Applications
8. Design and Technical Descriptions
   - Implantation Approach
     - Flow Diagrams
   - Conceptual Design
   - Client Web Service Design
   - Method Specifications
     - Class Diagrams
   - Logic Design for each process
   - Communication processes
9. Development
10. Testing
11. Acknowledgements
